It may be old-hat for most folks, however following the Newark Bay related topics, we'll also be sticking around for a brief tour of the Lister facility groundwater system and shoreline controls as well. Thanks.

All,

See attached for draft agenda. It's pretty basic but should help keep things organized once we gather and have brief introductions. I welcome any thoughts or additions.

Enrique

Thank you Juan, see below our attendees from the Newark Bay Study Area team to the November 8 meeting:

Eugenia Naranjo - USEPA

Alice Yeh - USEPA

Len Warner - Louis Berger Group

Ed Garland - HDR

Hi Alice,

Enrique and I actually spoke this morning and we outlined an agenda and likely attendees for the NB meeting. He is drafting up what we discussed and then planning to send to Eugenia for input. I've cc'd him on this email so that he knows to add you as well.

The Newark Bay visit serves dual purposes for us: 1) to become familiar with the Newark Bay work still being conducted by Tierra, and 2) to observe successful and approved practices and procedures for Passaic-related work. With this in mind, I expect the Oxy-affiliated attendees for the Newark Bay sample processing site visit to include the following:

Mike Anderson, GSH
Juan Somoano, GSH
Steve McGee, Tetra Tech
Richard Feeney, Tetra Tech
Gary Braun, Tetra Tech
Dave Richardson, Tetra Tech

Everyone except Dave Richardson will be attending the meeting at your offices in NY with regard to OU2 RD. "Formal" agendas to follow on both meetings as previously noted.

Thanks!
Juan

By the way, do you have an agenda for the 11/8 Newark Bay meeting, or questions you were hoping to get answered? If we could have that in advance, it might make for a more productive meeting.

Also, if you could let us know who will be attending the 11/8 Newark Bay meeting, that would be great. I'll have Eugenia Naranjo send you the list of EPA/contractor attendees.
